Driver Education State Board Rules

All Driver education courses offered in Idaho's commercial schools must be conducted in compliance with all of the Idaho Licensing Requirements and Standards For commercial Driving School Education and Training approved on October 17, 1996. IDAPA 08.02.02.230. DRIVER EDUCATION

Curriculum and Resources

Our Instructors use a variety of instructional techniques to enrich the classroom. "Students learn best when they are actively involved in the learning process, therefore, instructors use questions to explore, examine, and explain concepts and techniques."

Our teachers use State Authorized Curriculums, Manuals & Textbooks: "Idaho Driver Education Curriculum Manual", "Idaho Driver Education Standardized Skills Guide", and the "Idaho Driver's Manual".

Graduated Licensing In Idaho

After completing a Driver's Education Program, students under the age of 17 must complete a supervised driving period of **50 hours (10 hours minimum at night)** for a period of no less than **6 months with no traffic violations**. The 6 month period will **restart** with any traffic violation or restriction violation.

During the supervised driving period students may **only** drive with a valid licensed driver **21 years** of age or older sitting in the seat beside the student (no other passengers are allowed in the front seat). Also all occupants must be seat belted or restrained by a child restraint. Students must have the permit in their immediate possession, as well as observe all laws regarding alcohol or other intoxicating substances.
